Shrimati Ajanta Neog (Minister PWD) replied :

- (a) Yes, the Deptt. is aware that some PMGSY works in Nowboicha LAC are showing slow progress. This is due to deplorable site condition such as bad existing road communication for carrying materials to the site, lack of alternative roads to the works site and damages to existing SPT Bridges.
- (b) Yes, where ever the Contractors were found to be achieving targets less than the milestones set, they had been asked to gear up the progress without further delay failing which action will be taken as per terms and condition of the Tender agreement by imposition of Liquidated Damages including termination of the works from the Contractor Concerned.
- (c) i) NH-52 via 2 No. Ranabari to Dolohat (Doolahat Kathalpukhuri to No. 2 Sonapur via Ranabari) has not been sanctioned under PMGSY schemes and will be taken up when 500+ population connectivity is taken up by the GOI.

**PRESENTATION OF THE ANNUAL FINANCIAL
STATEMENT (BUDGET ESTIMATES) OF THE
GOVERNMENT OF ASSAM FOR THE YEAR,
2010-11**

মাননীয় অধ্যক্ষ : আইটেম নং : ২। এতিয়া মাননীয় মুখ্যমন্ত্ৰীয়ে ২০১০-২০১১
চনৰ বিত্তীয় বছৰটোৰ বাবে বাজেট উপস্থাপন কৰিব।

* Shri Tarun Gogoi (Chief Minister) :

Hon'ble Speaker Sir,

I now rise to present the State Budget for the financial year 2010-11.

2. Economic Environment -

In my Budget speeches of the last two years I mentioned about the global financial crisis and the consequent economic recession. Along with the rest of the Country, Assam also experienced slow down of economic activities in the wake of the global recession. However, because of our strong fundamentals and deft handling of the situation, the Indian economy was not as badly hurt as many other countries. Even in the midst of the global recession, the GDP growth rate of Indian was 6.7% in 2008-09. Corresponding GSDP growth rate of Assam in 2008-09 was 6.16%. The real turnaround in the national economy came in the sec-

* Speech not Corrected

ond quarter of 2009-10 when it grew by 7.9%. As per advance estimates growth rate of national GDP for 2009-10 full year is poised to be 7.2%. The corresponding GSDP growth rate of Assam in 2009-10 will be 6.35% as per advance estimates. There are now clear indications that both the national and state economies are on a high growth path. It is now established that our stimulus packages worked. If everything goes well the national GDP growth rate in 2010-11 may reach or even cross the 9% mark. Through this budget and with cooperation of the people of the State, I would like to work for and see a similar high growth rate of around 9% for our State also.

3. The State Economy :-

3.1 I am happy to inform the august House that our State Economy has been able to maintain steady growth during the past few years. The state Economy (GSDP at 1999-2000 constant prices) has been growing at an annual rate of 5.08% during the last ten years. During the Tenth Plan period from 2002-07 the average annual growth rate of Gross State Domestic product (GSDP) at constant (1999-2000) prices was 5.33 per cent in real terms. The GSDP of Assam for the year 2008-09 has been worked out at Rs. 53,319 crore at constant (1999-2000) prices and Rs. 79,277 crore at current prices. It registered an increase of 6.16 per cent and 10.68 per cent at constant (1999-2000) prices

and current prices respectively over the previous year. As per advance estimates for the year 2009-10 the GSDP of Assam is expected to be Rs. 56,702 crore at constant (1999-2000) prices and Rs. 88,023 crore at current prices with growth rates of 6.35 per cent and 11.03 per cent respectively. The Net State Domestic Product (NSDP) of Assam during the year 2008-09 was Rs. 48,262 crore and Rs. 71,164 crore at constant (1999-2000) prices and current prices respectively. The NSDP growth rate of the State Economy in real terms was 6.12 per cent over the previous year. As per advance estimates the NSDP growth is expected to attain 6.30 per cent during 2009-10. The per capita NSDP of Assam at constant (1999-2000) prices and at current prices stood at Rs. 16,272 and Rs. 23,993 respectively during 2008-09. As per advance estimates for 2009-10 the same are expected to increase to Rs. 17,080 at constant (1999-2000) prices and Rs. 26,242 at current prices.

3.2 On the price front, the Indian Economy experienced high rate of inflation during the last year. Although the inflationary trend is still continuing, of late some signs of abatement have been noticed. While the rate of inflation in case of all commodities registered 4.78 per cent increase in November, 2009 compared to the corresponding month of the previous year, the food inflation recorded an increase of 16.7 per cent during

the same period in the country. From September, 2009 onwards the inflation rate measured in terms of Wholesale Price Index (WPI) has been rising rapidly, mainly due to increase in the prices of food items, both primary and manufactured, and non-food agricultural items. Average food inflation which was 7.56 per cent during 2008-09 increased to 13.54 per cent in the period from April to December, 2009. Overall food inflation in December, 2009 was 19.77 per cent. Although the overall food inflation appeared to have peaked in December, 2009, it is expected to be moderate towards the end of the year.

3.3 - As for Assam, the Wholesale Price Index based on the prices of agricultural commodities grown in Assam shows that the annual average WPI [base 1993-94=100] increased by 8.33 per cent during 2008-09 over the previous year. A substantial increase of 11.52 per cent was also noticed [in respect of WPI] during the first seven months of 2009-10 i.e. from April, 2009 to October, 2009 over the corresponding period of 2008-09.

3.4 The annual average of Consumer Price Index (CPI) for working class population of Assam with base 2001=100 displayed an increase of 7.2 per cent in 2008 over 2007 and 6.8 per cent in 2007 over 2006. However, on point-to-point basis a further increase of 10.71 per cent was noticed in the month of October, 2009

over the corresponding month of the previous year.

3.5 For a number of essential commodities including food items, Assam is dependent of supply from outside the state. Therefore, rise in prices of these commodities at source has a cascading effect on the price level in Assam. However, due to a number of effective measures taken by the State Government we have not allowed prices of essential commodities in Assam to rise above the price level at source and in other places of the country. I assure this august House that my Government will not allow any unscrupulous element to resort to hoarding of essential commodities and creation of artificial scarcity, thereby leading to abnormal price rise. My Government will take the strongest possible measures, including punitive actions, to deal with any abnormal rise in prices of essential commodities. Vigilance against hoarding and adulteration etc. will be strengthened. The PDS system will be further streamlined. Besides these measures, I have also decided to set up the Assam State Civil Supplies Corporation for effective implementation of Public Distribution System and engagement in production, storage and distribution of essential commodities, foodstuff and auxiliary services. Through this Corporation and other means at our disposal the State Government will play the role of a market regulator through timely intervention on the supply side of essential commodities as the situation

may warrant from time to time.

4. State Finance -

4.1 The State Finance have staged a remarkable recovery during the last few years. Hon'ble members will be happy to know that Government of Assam has been able to achieve the fiscal targets laid down in the Assam FRBM Act, 2005. During the last four financial years the State Government has been able to achieve both revenue and fiscal surpluses. So far we have been maintaining these positive trends in the current financial year also. This achievement in fiscal performance has enabled the State Government to become eligible for debt waiver to the tune of Rs. 105 crore every year since 2005-06 under Government of India's Debt Consolidation and Relief Facility (DCRF) Scheme. The Thirteenth Finance Commission has also awarded an amount of Rs. 300 crore to Assam as performance incentive grant in recognition of our sound financial management.

4.2 Twelfth Finance Commission prescribed 15% as the limit for interest payment as a ratio of revenue receipt. Our interest payment expenditure has come down to 8.81% of revenue receipt. Our debt burden was 27.95% of GSDP at the end of 2008-09. The per capita debt of Assam as on 31.03.2009 was Rs. 7461. This is the second lowest in the country.

4.3 We have been contributing regularly to the consolidated sinking fund which was constituted as a cushion for redemption of debt repayment obligation in future.

4.4 Hon'ble members will be happy to know that outstanding Government guarantees against loans of various State level PSUs have come down from Rs. 1583 crore at the end of 2000-01 to Rs. 795.87 crore at the end of 2008-09. I have also constituted a Guarantee Redemption Fund (GRF) for redemption of Government guaranteed loans as and when the guarantees may be invoked by the lending institutions in the event of failure of the borrowing PSUs to repay the debts.

4.5 This remarkable turnaround has been possible because of a series of reform measures, many of them painful that were undertaken by me after I came to power in 2001. Some of them are— (a) Implementation of a Medium Term Fiscal Reform Programme adopted in March, 2003, (b) Implementation of a comprehensive fiscal restructuring programme titled Assam Governance and Public Resource Management Programme sponsored by the ADB and Government of India from 2004, (c) Enactment and implementation of the Assam Fiscal Responsibility and Budget Management Act, 2005 (d) Significant improvement in States own revenue collection, both tax and non-tax, (e) Compression of revenue expenditure wherever possible without affect-

ing public interest and (f) Containment of public debt including Government guarantees and other contingent liabilities. These efforts of the State Government were no doubt complemented by increase in transfers from the Centre- both in terms of State's share in Central Taxes and Grants-in-aid.

4.6 Hon'ble Members will be happy to know that I have already started the process of providing computers and necessary accessories with related training to all the DDOs under the State Government. All the DDOs will be connected online with their controlling officers, Treasuries and Finance Department during the next year. This will increase the speed, efficiency, transparency and accountability in our financial management system to a great extent.

5. Thirteenth Finance Commission

5.1 The report of the Thirteenth Finance Commission was published on 25th February, 2010. Assam has been given a handsome award by the Thirteenth Finance Commission, recommending a total transfer of Rs. 57,832.70 crore during the five year period from 2010 to 2015. This is 72.98 per cent of GSDP at current prices in 2008-09. The Twelfth Finance Commission recommended transfer of Rs. 24,329.30 crore, which was 42.07 per cent of GSDP at current prices in 2005-06. The 11th Finance Commission Award totaled

only Rs. 13,280.86 crore. Under the award of the Thirteenth Finance Commission the States will collectively receive 32 per cent as their share of all Central Taxes as against 30.5 per cent recommended by the Twelfth Finance Commission. During the 13th Finance Commission award period Assam will receive Rs. 52,620.60 crore as its share of Central taxes. This is a quantum jump over Rs. 19,850.69 crore and Rs. 13,280.86 crore recommended by the Twelfth and Eleventh Finance Commissions respectively. Assam's inter-se share in Central Taxes has gone up to 3.628% under the Thirteenth Finance Commission award as compared to 3.234% and 3.285% recommended by the 12th and 11th Finance Commissions respectively.

5.2 The Thirteenth Finance Commission has awarded a total grant amount of Rs. 5212.10 crore. This included Rs. 1892.80 crore for local bodies, which is much higher than the Twelfth Finance Commission award of Rs. 581.00 crore and Eleventh Finance Commission award of Rs. 255.00 crore for this purpose. Thirteenth Finance Commission has earmarked Central share of Rs. 1311.76 crore for contribution to State Disaster Relief Fund, which has replaced present Calamity Relief Fund. The ratio of Central share and State share in the State Disaster Relief Fund has been changed from 75:25 at present to 90:10. In addition to that, Assam will get a grant of Rs. 25.00 crore from the

Centre during 2010-2015 for capacity building for disaster management. Moreover, the Commission has recommended Rs. 600 crore as grants-in-aid for State specific needs of Assam. The amount would be released in installments of Rs. 150 crore each year during the 13th Finance Commission award period. Out of the grants of Rs. 600 crore for State specific needs, an amount of Rs. 50 crore is for Cotton College. The other important grants are— Rs. 230 crore for Border Areas Development, Rs. 130 crore for the Sixth Schedule Districts, Rs. 50 crore for Police Training, another Rs. 50 crore for construction of Police Housing in Hill and other areas, Rs. 50 crore for promotion of Tourism, Rs. 40 crore for Heritage conservation including Rs. 5 crore for the Sattras of Majuli. In addition to the above, the other grants are— Rs. 336 crore for maintenance of Roads & Bridges, Rs. 88 crore for environment related water sector management, Rs. 184.60 crore for environment related Forests Management, Rs. 121 crore for improvement in justice delivery, Rs. 55.80 crore as incentive for issuing UIDs, Rs. 300 crore as incentive for better fiscal performance, Rs. 27 crore for District innovation fund, another Rs. 27 crore for improvement of statistical system at State and District levels and Rs. 5 crore for employee and pension databases. Release of the grants for State specific needs will have to be preceded by amendment of the existing FRBM Act incor-

porating a new fiscal reform path. Over and above the total award amount of Rs. 57,832.70 crore, Assam will also benefit substantially from the debt waiver scheme of the Thirteenth Finance Commission. The Commission has recommended waiver of all outstanding Central loans as on 31.3.2010 provided by Central Ministries other than the Ministry of Finance. The Twelfth Finance Commission recommended debt relief in respect of Central loans upto 31-3-2004 and outstanding as on 31-3-2005 extended only by the Ministry of Finance. It did not cover Central loans provided by other Central Ministries. The recommendation of the Thirteenth Finance Commission will enable Assam to gain debt relief of about Rs. 502 crore of principal loan outstanding as on 31.3.2010. With interest the total benefit will exceed Rs. 1000 crore. However, to avail this debt relief the States will have to amend their FRBM Acts incorporating new fiscal targets as per guidelines of the Thirteenth Finance Commission.

6. State Finance Commission and Devolution of Fund to Local Bodies.

The 73rd and 74th Constitutional amendments have endowed the Panchayati Raj Institutions (PRIs) and Urban Local Bodies (ULBs) with adequate powers, functions, resources and responsibilities so as to make them viable and vibrant local self governments. Third Assam State Finance Commission (TASFC), which was

constituted in February, 2006 submitted its final report on 27th March, 2008 to the Government. The report contains altogether 103 recommendations. The State Cabinet approved the recommendations with some modifications as suggested by a Committee of Group of Ministers. They are now being implemented. As a result of this, the volume of transfer of funds to the Panchayats and urban local bodies has increased manifold. This will enable them to discharge their functions more efficiently and effectively. I hope the local bodies, both in the rural and urban areas, will make proper utilization of the funds. The award period of third Assam State Finance Commission (TASFC) will expire on 31-3-2011. Meanwhile, the State Government has decided to constitute the Fourth Assam State Finance Commission, whose five year award period will commence from 1st April, 2011.

7. Institutional Finance -

7.1 Hon'ble Members are aware that I have always emphasized the importance of increasing the flow of rural credit in the State and have taken several measures in this regard. You will be happy to know that agriculture lending which was around 13.22% of total advances in March, 2009 increased to 18% in December this year, thus reaching the national average. Disbursement of crop loans increased from Rs. 79 crore in 2006-2007 to Rs. 203 crore in March, 2009. This year,

banks have already disbursed crop loans totaling Rs. 276 crore till December. The Credit Deposit ratio as on 31st December 2009 stood at 43.69 per cent.

7.2 Hon'ble members will recall that in 2006, I had initiated a scheme through NABARD for providing 2% interest subvention on all crop loans up to Rs. 20,000. Cheap credit being vital for farm production, I have raised the interest subvention to 3% this year. Interest relief on working capital and terms loans to our weavers, sericulturists and village artisans, and educational loans for meritorious students as well as loans for rural housing will be provided.

7.3 The two Regional Rural Banks in Assam play a crucial role in providing rural credit. As advised by NABARD, I have already sanctioned Rs. 50 lakh this year and have provided another Rs. 62 lakh as additional share capital contribution to strengthen the Langpi Dehangi Rural Bank.

7.4 The Assam Financial Corporation launched the Chief Minister's Micro Finance Scheme with a corpus of Rs. 10 crore in December, 2009. We are providing further support to AFC to help more SHGs, particularly women groups in the current budget. I am pleased to inform the House that with our concerted efforts SIDBI has agreed to resume refinance to AFC. A Memorandum of Understanding on this will be signed soon. The Corporation is also on the verge of launching a Venture

Capital Fund scheme. The Government is also enhancing the authorized share capital of AFC to enable it to play a more active role in development of small and medium enterprises.

8. New Pension Scheme -

As you are aware, my Government had earlier announced introduction of new contributory pension scheme for the employees joining the state Government services on or after 1st February, 2005. The salient feature of the new scheme is that the employees and the State Government will contribute equally to the individual pension accounts. The future generation will be saved from bearing the pension burden of the present employees. We have recently executed agreements with the Central Record Keeping Agency (CRA), namely National Securities Depository Ltd. (NSDL) and the NPS Trust for launching the new contributory pension scheme in Assam. The New Pension Scheme has been provisionally implemented with effect from January, 2010. The Registration Process of nodal officers with NSDL has already been initiated. Office of the Directorate of Accounts & Treasuries, Assam will work as the CRA during the interim period.

9. Pay Revision-

9.1 Based upon the recommendations of Assam Pay Commission, 2008, the State Government has revised

the pay, pension and allowances for its employees and pensioners. This will cause an additional financial liability of approximately Rs. 4200 crore in the first year and is likely to go up by about 10 to 12% cumulatively every year thereafter. The Assam Services (Revision of Pay) Rules 2010 has been notified and the process of drawal of pay as per the revised pay structure has already started. Meanwhile the State Government has constituted an Anomaly Committee to address any anomaly that may be reported.

9.2 A Pay Revision Committee has also been constituted for the State level Public Sector Undertakings.

9.3 The State Government has agreed to implement the revised pay structure as per UGC, AICTE and MCI norms for the faculty members of various Universities and Colleges. Work of preparing the notifications on the basis of the relevant Regulations of UGC and AICTE is in progress and I hope to bring them out soon. Estimated additional requirement of fund for adoption of UGC and AICTE pay scales have been provided for in 2010-11 budget.

10. Annual Plan 2010-11 -

10.1 Hon'ble members are aware that the 11th Five year Plan commenced from 1st April, 2007 with an approved outlay of Rs. 23954 crore for Assam. The Plan size of Assam for 2009-10 was finalized at Rs. 6000

crore after my meeting with the Deputy Chairman of Planning Commission. It may be mentioned that the 13th Finance Commission report was released only on 25th February, 2010. Moreover, new policy guidelines regarding States' borrowing limits in pursuance of 13th Finance Commission recommendations are yet to be received. This may necessitate some amendments of the FRBM Act. Because of these uncertainties Planning Commission deferred Annual Plan finalization process of the States. Now that the 13th Finance Commission report is available we have a better idea of our resource position vis-a-vis our Annual Plan 2010-11. I hope to meet the Deputy Chairman, Planning Commission for finalization of our Annual Plan 2010-11 soon. However, with a view to ensuring that the momentum of development process in the State does not slow down, I am submitting a tentative Annual Plan Budget of Rs. 7527.70 crore for 2010-11. I hope this outlay will increase further after my discussion with the Deputy Chairman, Planning Commission. Thereafter, I shall come back to this august House with supplementary demands that may be necessary.

10.2 The tentative Annual Plan includes Rs. 842.22 crore for Externally Aided projects, Rs. 1575.09 crore for Centrally earmarked schemes and Rs. 350 crore for rural infrastructure development fund which includes a small part of Finance Commission grant.

10.3 I shall give special attention to the rational utilization of the scarce plan resources. I have introduced State Specific Schemes since 2006-07 to focus attention on implementation of some identified schemes under some key sectors for which I am proposing to provide Rs. 724.74 crore in 2010-11 budget. Mukhya Mantir Asom Bikash Yojana introduced in 2007-08 will continue and Rs. 346.50 crore is proposed to be provided for this purpose in the 2010-11 budget.

10.4 The Eleventh Five year Plan will be over by 31st March 2012. I shall give special emphasis on completion of the ongoing projects to avoid spillover of liability to the Twelfth Five Year Plan. I have already worked out the amount and action plan needed to achieve the goal. An amount of Rs. 950 crore is required to complete 38 ongoing projects under one time Special Central Assistance Programme. The ongoing projects are essential components of our plan for infrastructure development and promotion of higher education. These include construction of roads, establishment of three new medical colleges at Jorhat, Tezpur and Barpeta, establishment of 2 Engineering Colleges one of which will be at Barak Valley, development of Historical Sites, Monuments, Sattras and revival of Lakhimpur Veterinary College. Moreover, the Hon'ble Members will be pleased to note that I have taken up the project of infrastructure development of rural colleges of the State

within Eleventh Five Year Plan by allocating Rs. 95 crore. An amount of Rs. 5 crore has already been provided and the balance amount of Rs. 90 crore is proposed to be provided in 2010-11.

10.5 I shall not go into the details of sectoral allocations in my speech. A summary statement of service and sector wise budgetary allocations for 2010-11 has been placed at Annexure II for ready reference of the Hon'ble Members.

11. Development Strategy -

11.1 In spite of the recent economic resurgence of the State, it is not possible to wipe out the development deficit of the past so many decades overnight. One or two budgets are not enough. It requires persistent and steady efforts. My dream is to see a fully developed Assam which will be as prosperous as any other state in the country. God has blessed us with abundant natural resources. Our youths are also second to none in their honesty, integrity, intelligence, skills, efficiency, general demeanour and overall personality. There is no reason why we should not be at the top of the ladder with such excellent natural and human resources. Peace and normalcy is a pre-requisite for development. I am happy that quite a few insurgent outfits have shown inclination to participate in the peace process and join the social mainstream. I am determined to walk the extra mile to redress their genuine and legiti-

mate grievances to bring back peace in the larger long term interest of the State. I shall make whatever sacrifice is required of me to achieve this.

11.2 In this budget I have given highest priority to building of physical infrastructure, institutions, skill development, employment generation and all-round welfare of the weaker sections of the society. Assam is not only a composite State, but also a State of great diversity and disparity. Although rural inequality in Assam is the lowest in the country, yet there is some disparity among different ethnic groups and different districts and regions of the State. Vertical disparities within the same ethnic group and region are also no less. This calls for probative and directly beneficiary oriented welfare measures. Purchasing power must be put into the pockets of the economically marginalized sections of the society so that they can also participate in the competitive market economy which is the order of the day. I believe in inclusive growth where every individual and every section of the society finds accommodation. In this budget I have tried to balance the long term developmental needs, particularly development of infrastructure, with the immediate welfare needs, especially food security, of the rural and urban poor.

11.3 The main thrust of my growth strategy is all round development of the rural areas with special

thrust on agriculture and cooperation. 87 percent of the population of our State lives in the rural areas and 75 percent of our people are dependent on agriculture for their livelihood. Unless the rural economy improves, impressive GSDP growth rates may be meaningless. Similarly it is very important to have equitable distribution of the fruits of development. Growth in per capita income alone may not reveal the reality. Per capita income has to be read together with the inequality factor. High level of per capita income with low level of inequality will only bring greatest happiness for the greatest number. It is with this philosophy in mind that I have included many beneficial oriented schemes in my Budget.

11.4 I hope the Hon'ble Members will agree with me that law and order situation has improved and the insurgents have lost whatever little support they might have had among the people mainly due to rapid economic development that we have been able to achieve during the last few years.

12. Internal security and strengthening of State Police -

12.1 There has been perceptible improvement in the law and order situation in the State, particularly since October 2009. Two militant groups namely DHD (Jewel) and KLNLF decided to lay down arms paving the way for negotiated settlement of their demands.

Senior leaders of the ULFA were also apprehended. Efforts are now on for a negotiated settlement of the ULFA problem.

12.2 The various measures undertaken during last year for strengthening of the Assam Police Force will be continued. An amount of Rs.73.50 crore has been earmarked for Modernisation of Police Force Scheme during 2010-11. The 13th Finance Commission has given Rs.50 crore each for Police training and for Police Housing. The State Government will supplement this with our own resources. We propose to fill up 4100 posts of Police Constables/Driver Constables and 115 nos. of SI of Police (UB). We are also recruiting 98 Sub Inspectors and going to promote 200 ASIs / HCs to the rank of SI of police. Construction of infrastructure of Head Quarters of 21st, 22nd, 23rd and 24th AP(IR) Battalions is expected to be completed during 2010-11. Another AP (IR) Battalion will be raised during 2010-11. Seventeen police stations and 20 outposts are proposed to be set up in the current year in different districts besides one Cyber Crime Cell at CID Head Quarter. At present, there are 324 Police Stations and 203 Police Out posts in the State. All the Police Stations in Guwahati city are proposed to be provided with 80 Police personnel each during 2010-11. I propose to increase the manpower strength in a phased manner to 40 in Rural Police Stations, 65 in Urban Police Stations.

and 80 in the District headquarters Police Stations.

12.3 Further, in order to tackle the growing nature of sophisticated crime, we propose to establish a Regional Forensic Laboratory and create Zonal Laboratories in the State in addition to providing sophisticated equipments to help crime investigation.

12.4 Improvement of Jail infrastructure will be given priority. Construction of double storied barracks in 5 Jails was taken up during the current year. In 2010-11 they will be completed and construction of double storied barracks will be taken up in 5 more Jails. Rs.1.45 crore has been provided for this purpose.

13. Border Areas Development-

Our inter State and international border areas are difficult and remote areas with very poor infrastructure, particularly road communication. As a result they have remained under developed and have become safe havens for the militants. All round development of these areas, particularly in the sectors of health, education, drinking water and sanitation, road connectivity, power and employment generation, will be given high priority. The 13th Finance Commission has also given a grant of Rs.230 crore for development of Border Areas. This will be supplemented by additional fund under the State Plan as well as from our own resources.

14. Sixth Schedule Districts and other Autonomous Councils -

14.1 Hill Areas -

My Government is committed to all-round development of the two Hill Districts. Rs.239.83 crore and Rs.104.11 crore have been provided in tentative Annual Plan of the State for 2010-11 for Karbi Anglong Autonomous Council and N.C Hill Autonomous Council respectively. Steps are being taken to set up the Assam Hills University, the Assam Hills Medical College and Research Institute, and the Assam Hills Engineering College, with campuses in both districts. In order to address the challenges of the unproductive practice of Jhum cultivation, alternative agro-economic activities are being promoted under the Integrated Jhumia Development Programme, and the Watershed Development Project in Shifting Cultivation Areas. The Government of India has sanctioned an amount of Rs.67 crore for implementation of various schemes under Roads and Bridges, Irrigation, Water Resource, PHE, Health and Sports in both the Hill Districts of Assam.

14.2 Bodoland Territorial Council-

As the Hon'ble Members are aware elections of Bodoland Territorial Council has been noticed on 11.03.2010. Therefore, I think it will be appropriate not to discuss BTC matters in my Budget Speech.

14.3 Other Autonomous Councils -

My Government is committed to the all-round socio-economic development of different indigenous ethnic groups. Six statutory Autonomous Councils were created for this purpose. They are - Rabha Hasong, Mishing, Tiwa, Sonowal Kachari, Thengal Kachari and Deuri Attonomous Councils. A total amount of Rs. 117.85 crore has been allocated for the six Autonomous Councils in 2010-11. Councill-wise detailed break up is at Annexure- II.

14.4 Seven other Development Councils.

Seven other Development Councils for Moran, Motok, Ahom, Chutia, Koch Rajbonshi, Tea Tribes and Gorkha are being set up and will be operationalised during the current financial year. I also propose to set up Development Council for Sarania Kachari and Amri Karbis and an amount of Rs. 10 crore has been provided for these Councils in 2010-11.

15. Tribal Sub Plan (TSP) and Schedule Caste Sub Plan (SCSP)-

The Tribal Sub-Plan and Schedule Caste Sub-Plan are critical for development of the Tribals and Scheduled Castes. The unutilized TSP and SCSP funds of 2006-07, 2007-08 and 2008-09 amounting to Rs. 95.81 crores has been sanctioned during this year. From now on TSP and SCSP funds will be made non-

lapsable. An amount of Rs. 48.66 crore is proposed under TSP for Welfare of the Tribal people living outside Council areas and Rs. 127.52 crore is proposed for SCSP in 2010-11 budget. An amount of Rs. 1.70 crore has been provided to Assam Plain Tribes Development Corporation Ltd. as assistance for clearing outstanding P.F. liabilities, salary backlog etc.

16. Welfare of Tea Tribes -

My Government has been implementing several schemes for development of Tea Tribes including Family Oriented Income Generating Schemes such as distribution of Power Tillers, Pump Sets, Pre-Matric and Post-Matric Scholarship, Installation of Electric Meter at the residences of tea workers, Grants to Non-Government Educational Institutions and Non-official Organisations, Grants for cultural activities including educational tours, for patients suffering from malignant diseases, for purchase of text book and uniforms, for construction of Boys and Girls Hostels and Rest House cum Cultural Centre at Guwahati. Several New Schemes have been introduced such as Promotion of sports and youth welfare schemes, financial assistance for higher studies and vocational courses, distribution of hi-cycles to poor girl students from Class-VIII onward and solar lamp to students securing at least II division in HSLC. Total sanitation scheme, drinking water supply scheme and setting up of 50 Skill development

training centres will also be taken up.

I propose to identify the trade and activity-wise efficiency of the Tea Tribe Youth and provide them a set of tool kits which will increase their work efficiency.

17. Welfare of Minorities -

17.1 The test for our inclusive development lies in the improvement of the socio-economic conditions of our minorities. Therefore the various welfare schemes of the Government of India are being implemented in our State including Multi-Sectoral District Development Plan in 13 districts for serving the cause of the minorities.

17.2 During 2010-11, emphasis will be given on farm mechanization for which it is proposed to distribute 124 Power Tillers, 665 Power pumps and 5000 Hand Tube Wells to the poor beneficiaries.

17.3 Adequate financial provision has been made for self employment of Minority Youths and for welfare of women of Linguistic Minority Communities. The State Government has allotted land at Jalukbari for construction of Haj Bhawan and preliminary works of construction has already started.

18. Development of Char Areas -

The Char Areas have their own special problems. Schemes for supply of drinking water, health care

facilities, educational facilities, supply of electricity through non-conventional sources and improvement of surface connectivity will get priority.

19. Unemployment -

Unemployment has remained a major cause of concern. It is not only a gross wastage of precious human resources, but also a serious social problem. It causes disaffection and restlessness among our youth. At present there are more than 20 lakh unemployed youth in the State including more than 13 lakh educated unemployed youth. A large number of employment generation schemes are being implemented by different departments under overall supervision of the Employment Generation Mission. While continuing schemes will be geared up further, my main thrust in 2010-11 will be implementation of a new scheme called Special Employment Generation Programme for creation of gainful employment opportunities for the youth. An amount of Rs. 200 crore has been allocated for this Programme. To further augment the resources for employment generation, I propose to tap Institutional Finances and other sources. For this purpose I propose to create an Employment Generation Financial Corporation.

20. Education -

20.1 Two main programmes for universal primary

education are Sarba Siksha Abhijan and Mid-Day Meal Scheme. My Government has been giving full support for effective implementation of these two critical National Programmes in the State. Necessary budget provision has been made to fully meet the State Share requirements. Emphasis has also been given to improve the quality of Primary Education as well as to set up new schools wherever necessary.

20.2 Secondary Education, Vocational Education and Madrassa Education will also be adequately funded. Here also my emphasis will be more on improvement of quality education rather than the numbers.

20.3 The emerging global economy will be more and more a knowledge economy. Massification of Higher Education has become a global phenomenon. The percentage of graduates and above in the work force has been increasing rapidly all over the world. That is why I have given great emphasis on setting up of Universities, Engineering Colleges, Medical Colleges and such other institutions of Higher Education. A few private Engineering Colleges have already started functioning in the State. Approvals have also been given for setting up of private universities after we enacted the Private Universities legislation. On 9th March last week Chairman of Tata Sons Shri Ratan Tata laid the foundation stone of Tata Institute of Social Sciences in Guwahati. I have persuaded Government of India to set

up the National Institute of Fashion Technology and the National Institute of Design in Assam. I hope I shall be able to bring more such world class and national level educational institutions to the State.

20.4 In addition to setting up new engineering colleges, we have also been able to increase the number of seats in Jorhat Engineering and Assam Engineering College Guwahati from 590 to 735 seats from 2010-11 academic session. Engineering courses have also been opened in Guwahati University, Dibrugarh University and Jorhat Science College from 2010-11 academic session with 165, 240 and 120 seats respectively. In addition to this four private Engineering Colleges have come up in the State with 1060 seats. Thus total number of Engineering College seats in the State has gone up from 590 a few years back to 2320.

20.5 In my last Budget Speech I mentioned about setting up a Women's University in the line of SNDT Women's University, Mumbai. A plot of land measuring 30 bighas has been identified near Assam Engineering College Campus, Jalukbari. Rs.1crore has already been provided to start work. The University will be named Rajiv Gandhi Women's University.

21. Art and Culture -

During 2010-11, it is proposed to implement various schemes such as multipurpose cultural com-

plex at Nazira, North East Tribal Museum and Cultural Centre at Sonapur, Madhab Deb Kalashetra at Narayanpur, setting up of a Film City at Jyoti Chitraban Film Studio in Guwahati and establishment of Cultural Complex in different parts of the State. It is also proposed to construct Jyoti Chitraban Film and TV Institute at Changsari. I am proposing to provide Rs.2 crore for establishment of Jyoti Bishnu Cultural University and Asom Sangeet Academy. It is also proposed to develop Archaeological sites, monuments, parks and site-museums and a State Central Library at Sankardev Kalashetra premises. It is also proposed to enhance the annual grants for Srimanta Sankaradeva Kalashetra, Assam State Film Finance Development Corporation and Jyoti Chitraban Film Studio.

22. Health and Family Welfare -

22.1 My Government started health care reforms since 2001 and the improvement is now visible. In 2004 the Maternal Mortality Rate (MMR) in our State was 480 against 1 lakh live births. In 2009 this has been brought down to 330. Similarly, Infant Mortality Rate (IMR) has been brought down from 64 in 2001 to 46 per 1000 live births in 2009. Our efforts to make health care services further accessible and affordable to the people of Assam, especially to the rural people, will continue. In this direction I propose to set up fifty new hospitals in the riverine areas of the State. My Govern-

ment will also establish 50 new model hospitals immediately in 50 LACs in the first phase. We have also decided to set up 3 new district hospitals at Nahorkotiya in Dibrugarh district, Majuli in Jorhat District and Sonapur under Kamrup Metro district. We hope that after the MCI inspection in the month of April, 2010, Jorhat Medical College will be fully operational. The construction activities of Barpeta and Tezpur Medical Colleges are going on in full swing.

22.2 We will also operationalise 104, a twenty four, hour health-help line, which can be accessed by the people round the clock. We have also satisfactorily progressed in controlling diseases like malaria and tuberculosis in our State. We will also roll out Mobile Medical Units (MMU) in 28 Sub-divisions apart from the District level MMUs, which are currently operating in all the districts.

23. Public Health -

23.1 Making provisions for safe drinking water will continue to be given very high priority. During 2010 - 11 it is proposed to provide safe drinking water in all the lower primary and upper primary schools in rural areas. Under the Mukhya Mantrir Assam Bikash Yojana, several Piped Water Supply Schemes and spot sources have been taken up for providing drinking water supply facilities to interior villages, Char areas, the ATC gardens and SC and ST dominated areas.

23.2 Four New District Level water testing Laboratories and 40 new Sub-Division level laboratories will be set up. Existing laboratories for detection of contaminants in drinking water will be strengthened. Training under the National Rural Drinking Water Quality Monitoring and Surveillance Programme will continue. Water Purifying System will be installed in 3524 schools under the Jalmoni Scheme. At present the Total Sanitation Campaign is being implemented in all the districts of Assam to provide sanitation facilities for every household. 24 GPs have been awarded Nirmal Gram Puraskar for Total Environmental Sanitation. It is proposed to take up large scale construction of BPL individual house-hold latrines and Community Sanitary Complex to achieve full sanitation by 2012.

24. Agriculture -

24.1 My Government is committed to the development of Agriculture and its allied activities. As I promised in the last budget, special emphasis has been laid on diversified agriculture cropping system by use of improved seeds and adoption of farm mechanization and improved technology on paddy wheat, maize, pulses and oilseeds for self sufficiency in food production in the State. As per recommendation of the National Action Plan for Climatic change, the government has decided to take up measures for arresting declining productivity and achieving full

vegetative coverage with agricultural crops throughout the year. Hon'ble Members will be happy to know that our efforts on the agricultural front are showing positive results. Food grain production of the State has gone up from 34.67 lakh MT in 2007-08 to 42.45 lakh MT in 2008-09. Our target for 2009-10 is 46 lakh MT. All necessary actions are being taken to complete establishment of the Sarat Chandra Sinha Agriculture College in Dhubri. I hope that this will go a long way in providing improved agricultural technology and know-how to the farmers.

24.2 Assam is still not self-sufficient in production of seeds. I understand that many of our seed farms are not being fully used. I propose to take steps for full utilization of the existing Government Seed Farms, if necessary through PPP mode. A scheme will also be launched to encourage local seed farmers. Seed Certification Agencies will be geared up. Restoration of the soil quality is another important requirement for agricultural growth. Necessary schemes will be implemented for enhancing soil nutrition.

24.3 Distribution of tractors, power tillers and installation of small scale agro-industries etc. are proposed to be taken up for welfare of women, landless and marginal farmers. During my tenure over 5100 tractors and 15,600 power tillers have been distributed to help small and marginal farmers. The comparable

figures for the five year period from 1996 to 2001 were only 221 tractors and 582 power tillers. Sale-counters, Grower Societies and provision of subsidy are proposed for solving the problems of buyers and sellers. The Government proposes to form Farmers' Clubs and take up Exposure Visits for dissemination of information, experience sharing etc. Agricultural extension services will be provided to make the farmers aware of credit facilities. Enhanced allocations have been made for uplift of Tribal Farmers Schedule Caste Farmers and for farmers who have been affected by natural calamities.

25. Irrigation -

25.1 Irrigation Department has so far reached 7.39 lakh hectares up to March, 2009 out of State's Irrigation Potential of 27 lakh hectares. AIBP, a centrally funded irrigation programme, will be implemented vigorously. Some other Irrigation projects are also being funded through NLCPR and other sources. Construction works of some irrigation projects have been continuing for many years. Our priority will be to complete all ongoing irrigation projects and schemes as expeditiously as possible. For this fund will not be a constraint. Similarly, many completed irrigation projects are lying inoperative for want of proper repair and maintenance. Necessary funds will be released for smooth functioning of all existing irrigation schemes and projects.

25.2 However, I shall give more priority to small and

medium irrigation projects. Our past experience shows that the gestation periods of the large irrigation projects are very long, they are capital intensive and their maintenance cost is also very high. On the other hand the cost benefit ratio is more favorable in small and medium irrigation projects. They are based on local water sources and their maintenance can be done easily by the local community.

26. Animal Husbandry and Dairy -

The main thrust of my Government in Animal Husbandry & Veterinary sector has been to attain self sufficiency in meat, poultry and egg productions. With this objective in view various schemes are being implemented for the benefit of individual farmers, SHG's, unemployed educated youth and women. The important schemes proposed for 2010-11 include repairing of damaged structures of veterinary institutes, provision of medicine for Dehydration Therapy, Milch Cattle Distribution Programme, Cattle breeding, Artificial Insemination, Life Stock Insurance Scheme, Poultry Development, Piggery Development, Fodder Development, Health Coverage and Re-habilitation Programme. Under Mukhyamantrir Asom Bikash Yojna the rehabilitation package in the poultry free zones in the State are being implemented replacing poultry activities with goatery and piggery schemes to support 12000 families affected by bird flu. Dairy Development

measures will be continued under the Milk Village Scheme, Town Milk Supply and RKVY.

27. Fishery -

Various important schemes which were taken up during 2009-10, such as Employment Generation Scheme through SHG, Assam Agricultural Competitiveness Project, Reclamation of Derelict Water Bodies, Fish Seed Farming, Fishery Extension, Training, Women Empowerment Programme and Matsya Mahotsav are proposed to be continued in 2010-11 also. It is proposed to establish one State Fishery Laboratory and continue mass awareness campaign on fisheries in all developmental blocks. The main thrust of my Government is to make the State self sufficient in fish production. Hon'ble Members will be happy to know that we have already achieved about 90 percent self sufficiency. Fish production in the State has gone up by 1.59 lakh MT in 2000-01 to 2.07 lakh MT in 2008-09

28. Water resources -

28.1 It is unfortunate that instead of being seen as a boon, the water resources of the State are perceived more as a bane due to the frequent floods and large scale erosion by the Brahmaputra, Barak and their tributaries. My Government has been implementing various short term flood management schemes in the

Brahmaputra and Barak Valleys, which have provided reasonable protection to about 16.50 lakh hectares of flood affected areas. Schemes taken up under Central Sector, Task Force, FMP and ACA / SPA have protected large swaths of vulnerable flood prone areas. Work of the four new schemes that were sanctioned in 2009-10 will commence very soon. A scheme taken up in Dhemaji District under NLCPR has been completed and it is expected to benefit about 10,000 hectares. In State Sector Schemes, several schemes under RIDF (NABARD) and State Plan, have been physically completed or are nearing completion.

28.2 For closing of the breaches that occurred in different dykes of Brahmaputra and Barak valley during the flood of 2009, 19 schemes amounting to Rs.31.38 Crore have been proposed for implementation under Calamity Relief Fund. Assam Integrated Flood and River Bank Erosion Risk Management Project, an ADB project, has been approved. Work on this project will commence soon.

28.3 Large scale erosion in the State is not only a major problem, in fact it is a problem bigger than floods. The Brahmaputra, Barak and their tributaries have eroded 3.86 lakh hectares of fertile land since 1954. This constitutes 7 percent of the total area of the State. The number of villages eroded away is 2534 and the number of families affected is 90,700. Some towns,

tea gardens and heritage sites have also been eroded. Schemes for prevention of erosion and reclamation will be adequately funded.

29. Public Works Department -

29.1 A modern road network is a basic infrastructure requirement for economic development. It not only helps growth of industry, commerce and trade, including marketing of agricultural products, but also helps immensely in good governance and maintenance of law and order. My Government has been implementing several roads and bridge construction projects with funds from the Government of India, World Bank NABARD, and NEC and also from the States' own resources. During the five year period from 2001-2006, 3510 kms of roads and 496 RCC bridges were constructed at a total cost of Rs.2144 crore. During the last four years the tempo of roads and bridge construction has been further accelerated. During the four year period from 2006-2010 (February) 9699 kms of roads and 788 RCC bridges have been completed at a total cost of Rs.5035 crore. These achievements may be compared with only 545 kms of roads and 177 bridges that were constructed at a total cost of Rs.471 crore during the five year period from 1996 to 2001 before I came to power. For 2010-11 my target is to complete construction of minimum 3000 kms of blacktopped roads and at least 300 RCC

bridges. Adequate budget provisions have been made for the purpose. In addition to construction of new roads and bridges due care will also be taken for proper maintenance of the newly constructed as well as the existing roads and bridges.

29.2 Coming to public buildings I would like to inform the Hon'ble Members that my Government will increasingly encourage adoption of green technology for construction of new public buildings. Similar technology will also be adopted in the existing buildings wherever possible.

30. Power -

Comprehensive reforms in the Power sector have started bearing fruits. Power generation within the State is projected to reach 1682 million units during the current year as compared to 820 million units in 2001. Karbi Langpi Hydro-electric Power Project which was languishing for over two decades was completed and is running very well. I am happy to inform the august House that despite 30% drop in hydropower generation due to drought like situation, ASEB and its successor companies would supply approximately 12.5% more power to consumers during 2009-10 as compared to last year. Our capacity to meet peak demand is now 1000 MW as compared to only 450 MW before the reform process was started in 2003-04. Under RGGVY, 4075 un-electrified, de-electrified and intensification

villages have already been electrified and connection provided to two lakes BPL families free of cost. Remaining census villages will be completed during 2009-10. Bongaigaon TPS of NTPC and Pallatana TPS of ONGC will improve power availability very substantially. Transmission capacity will be enhanced to draw 2000 MW power in next two years with implementation of 400 KV Kukurmara substation and other 15 new 220 and 132 KV substations with State Plan and ADB assistance. Distribution system will be modernized with the implementation of RAPDRP scheme. During the current year the State Government has sanctioned an amount of Rs.770.40 crore for the Power sector. This includes an amount of Rs.407.15 crore for repayment of outstanding loan liability of ASEB. With reduction in the loan repayment liability on behalf of ASEB, I propose to provide an amount of Rs.690.04 crore in 2010-11 Power sector.

31. Industries & Commerce -

31.1 For ensuring a congenial atmosphere for industrial growth of the State, various Schemes are being implemented under the State and Central sector for creation of requisite industrial infrastructure. Emphasis is being laid on establishment of specialized commodity parks for tea, plastics, textiles, jute, bamboo, food and other agricultural products. Investment worth Rs.6000 crore involving 13 mega

projects in the private sector and additional Investment worth Rs.1000 crore in the State sector with Government of India assistance are expected during 2010-11.

31.3 For small and medium industries five new clusters specializing in terracotta, traditional jewellery, fireworks, handloom and mrit-silpa have been taken up in five districts of the State. I propose to set up micro-level enterprises in every village for facilitating employment generation. Our proposal for upgrading ten industrial estates in the State at a cost of Rs.100 crore is at the final stage of receiving Government of India's approval.

31.4 To facilitate border trade with neighbouring countries, three border trade centres are being promoted.

32. Handloom, Textile and Sericulture -

32.1 Assam has one of the highest concentration and largest number of weavers in the country. The

employment generation potential of the handloom, textile and sericulture sector is vast. Another important aspect of this sector is its low capital output ratio and high employment-investment ratio. Therefore I have given special thrust on this sector. We have invested substantially in recent years for development of the Handloom, Textiles and Sericulture sector through various State and Central sector schemes keeping in view its great importance as an employment provider. These include Grants in aid in the form of looms & accessories to about 11,000 weavers in the last three years.

32.2 Under Assam Bikash Yojana the scheme of distribution of blanket and cotton hank yarn to the poor weavers will be continued. It is also proposed to extend Health Insurance Scheme benefit to about three lakh weavers during this year.

32.3 Sericulture is not only an important economic activity but also an integral part of our cultural heritage. Besides other schemes I propose to establish model Sericulture villages in potential Eri and Muga districts in the State during 2010-11 for promotion of Eri and Muga. We are actively considering setting up of at least 6 (six) Handloom Training Centres (HTC) for upgradation of weaving skill among the people living in the tea garden areas and char areas.

We have already set up 3100 Common Service Centres in various parts of the State. They are providing multifarious services to the common people. The remaining 1275 CSCs are expected to be set up within a short period of time.

33.2 Assam is implementing the State Wide Area Network which will usher in an era of communication super highway in our State. We are also putting up the State Data Centre, with state of the art equipments for data storage and data warehousing. My Government is committed to provide financial support to the various programmes like Rajiv Gandhi Computer Literacy Programme and Anandoram Barooah Scheme for promoting computer literacy in the State.

34. Social Welfare -

34.1 I have given special emphasis on and made generous provision of funds for social welfare. There are various weaker segments of society whose needs and

problems cannot be redressed through the market economy. The old, the infirm, the widows, the sick, the physically challenged, the orphans and those living under difficult circumstances on the verge of destitution need special care and attention of the government. My strategy in this sector is to work through the NGOs. The State Government has launched several innovative programmes such as unemployment allowance to the disabled persons and allowances to families with disabled children, State Commission for Protection of Children Rights, financial incentive to girls of BPL families who marry after 20 years of age, establishment of Protective Home for Women, setting up of Women and Child Development Councils, financial assistance to unemployed unmarried women and widows above 45 years of age, old age home for Women, bicycle for Anganwadi workers under ICDS Scheme, establishment of two special institutions for education of hearing and visually impaired students.

the end of this financial year. It is proposed to provide bicycles to 28,695 more Anganwadi workers in 2010-11.

Janata Housing Scheme and Assam Bikash Yojana will be continued. The Assam Urban Water Supply & Sewerage Board has taken up 52 water supply schemes for the urban areas. For improvement of the civic infrastructure and amenities in the urban centres adequate budget provision has been made in 2010-11 budget. The urban local bodies will also receive substantial amounts of grants under the 13th Finance Commission Award and the 3rd Assam State Finance Commission Award.

37. Environment and Forest -

Global warming and climate change are serious causes of concern for all of us and need to be addressed with all the earnestness that they deserve. We have focused our efforts in this direction by protection and conservation of our forest cover and bio-diversity, creation of green belts and ecosensitive zones, conservation of water-bodies and water harvesting, keeping our rivers and other water sources free from pollution and planning for green buildings. Forestry is a very important sector and plays a vital role in safeguarding the ecological balance of the region and in the growth and development of agriculture and other allied sectors. Some important schemes proposed to be taken up during 2010-11 are creation Of 18,000 hectare plantation, seedling distribution, raising of the second battalion of Assam Forest Protection Force, and

39. Tourism -

39.1 The importance of the Tourism sector as an engine of growth and its employment generation potential need no emphasis. The vast tourism potential of Assam is now being realized. The number of both foreign and domestic tourists is increasing exponentially. Realization of full tourism potential of the State requires appropriate infrastructure, tourism friendly soft skills and environment as well as imaginative promotional campaigns both within the country and abroad. I propose to implement schemes and projects in all these lines.

39.2 Government of India has tentatively approved a mega National Park and World Heritage Site tourist circuit for Assam at an estimated cost of Rs.50 crore. avenues of self employment in rural areas under the Chief Minister's Special Employment Programme of 2010-11, an amount of Rs.35.50 crore has been allocated to SIRD to assist around 12000 farmers, women weavers and unemployed youth. 48. Commercial Taxes -

Before, I come to the taxation proposals, I would like to inform the house regarding some important developments during the current financial year.

1. Goods & Service Tax (GST): GST was proposed to be introduced with effect from 1st April, 2010. However, due to non-resolution of some important issues, GST will not be introduced from 1st April, 2010.

2. Central Sales Tax (CST): The rate of CST was reduced to 2% with effect from 01.06.2008. CST was to be abolished on introduction of GST with effect from 01.04.2010. The Union Government had promised to compensate the States for loss of revenue due to reduction of CST. However, since GST will not be

introduced with effect from 01.04.2010, CST will continue at the rate of 2%. But, the Union Government has refused to give compensation for the next financial year i.e., 2010-2011 and subsequent years. In such a scenario, the State of Assam and many other States will suffer huge loss of revenue. The Empowered Committee of State Finance Ministers is interacting with the Union Government to resolve this issue.

3. The global financial crisis and resultant economic recession affected our tax revenue collection also in last two years. However the economic situation has started showing signs of revival gradually. The provisional total revenue collection upto January, 2010 is Rs.3232.38 crore compared to Rs.2823.74 crore for the corresponding period of last year, showing a growth of 14%. The VAT collection, other than petroleum sector and liquor has grown to Rs.1352.90 crore upto January, 2010 from Rs.1100.26 crore upto January, 2009 showing growth of 23%. I am happy to inform the house that we are among the top few States in the country having growth of more than 20% in collection of VAT

4. We have notified the Assam Industries (Tax Exemption) Scheme, 2009 to implement provisions of Industrial Policy, 2008 relating to tax benefits.

5. **Central VAT Registration Cell:** For convenience of businesses in Guwahati a Central VAT Registration Cell (CVRC) has been created with effect from

01.10.2009. Any dealer can apply for VAT registration in CVRC and obtain Registration Certificate on the same day.

6. **Composite Checkgate:** The construction of Composite Checkgate at Srirampur is almost complete and it would be operationalised soon.

Tax Proposals:

(a) Since price of food items has increased sharply in last few months, I propose to remove the existing entry tax of 1% on sugar and 4% on fish and eggs.

(b) After due consideration on the representation made by the textile traders and manufacturers, I propose to reduce entry tax on textile from existing 4% to 2%.

(c) In order to encourage blending and packaging of tea in the State, I propose to remove existing entry tax of 4% on tea.

(d) The existing cinema halls in the State have shown signs of revival. In order to encourage them, I propose to reduce the rate of entertainment tax on payment of admission to cinema halls upto Rs.20/- from existing 30% to 15% and on payment of admission of more than Rs.20/- from existing 50% to 20%. Further, I propose to keep the rate of tax same for big and mini cinema halls.

(e) Last year VAT on medical equipments, devices and implants were reduced. Now, I propose to reduce VAT

on X-ray films and other diagnostic films to 5%.

(f) I propose to reduce VAT on pressure cookers, steel and brass utensils, being items of daily use, from existing 13.5% to 5%.

(g) In order to encourage tourism and infrastructure development, I propose to reduce the rate of VAT on lease transactions from 13.5% to 5%.

(h) In order to encourage tourism and labour intensive hotel and catering business, I propose to reduce rate of VAT on cooked food items from 13.5% to 5%.

(i) Since cups and glasses made of paper and plastic are already taxable at 5%, I propose to reduce the rate of tax on plates, forks and spoons made of paper and plastic from 13.5% to 5%.

(j) Last year the rate of VAT on plywood was reduced to 5%. Now, I propose to reduce the rate of VAT on block board and decorative plywood from 13.5% to 5%.

(k) In order to encourage cultivation of turmeric, I propose to exempt fresh turmeric from VAT. The existing rate of tax is 5%.

(l) In order to encourage traditional indigenous fireworks industry, I propose to introduce a scheme of refund of VAT paid by manufacturers of such traditional indigenous fire works.

(m) I propose to continue deduction of Rs.5/- for every kilogram of tea exported through Inland Container Depot (ICD), Amingaon from agricultural income for computation of agricultural income tax for one more year with effect from 1st April, 2010. Further, in line with Union Budget, I propose to increase the rate of minimum alternative tax (MAT) on agricultural income from existing 10% to 18%.

(n) In order to provide relief to small businesses, I propose to increase the limit of annual turnover from existing Rs. 10 lakh to Rs. 20 lakh for submission of monthly return under the Assam Value Added Tax Act, 2003. As a result, dealers with annual turnover upto Rs. 20 lakh will have to submit quarterly returns only.

49. Budget Estimates FOR 2010 - 11 :

Now Sir, I come to budget estimates for the financial year 2010-11. The five year medium term fiscal plan and other statements required to be placed in terms of the relevant provisions of the Assam FRBM Act, 2005 have been placed in this August House in a separate booklet.

Budget Estimates for 2010-11

The budget estimates of 2010-11 show a receipt of Rs.29833.86 crore under the consolidated fund of the State. Out of this, Rs. 26408.93 crore is on Revenue Account and the remaining Rs. 3424.93 crore is under

Capital Account. I have shown the estimated receipt in the consolidated fund from different sources at **Table-1**. After adding the receipt of Rs. 92201.26 crore under Public Account, the aggregate receipts amount to Rs. 122035.12 crore. As against this, total expenditure from the consolidated fund of the State in 2010-11 is estimated at Rs. 36810.03 crore of which Rs. 32369.02 crore is on Revenue Account and Rs. 4441.01 crore on Capital Account. The estimates of major expenditure from the Consolidated Fund during 2010-11 have been shown in **Table-2**. Taking into account the expenditure of Rs. 91729.08 crore under Public Account, the aggregate expenditure for the year is estimated at Rs. 128539.11 crore. Thus, estimated transactions during the year will result in an estimated deficit of Rs. 6503.99 crore. This, together with the opening deficit of Rs. 3460.47 crore for the year 2010-11 would have led to an estimated closing deficit of Rs. 9964.46 crore. However, I propose to utilize of an amount of Rs. 6500.00 crore during the year from our deposits with the Reserve Bank of India. Hence, the budget deficit at the end of the next financial year 2010-11 is estimated to be Rs. 3464.46 crore.

With these words, Mr. Speaker Sir, I commend this budget to the House.

F. No. 14-1/2004-CD I (Vol.II)
Government of India
Ministry of Women & Child Development

Shastri Bhavan, New Delhi
Dated the April, 2007

1. The Secretaries in-charge of ICDS Scheme in all States/UTs
2. Directors (ICDS) in all States/UTs

Abstract : Third phase of expansion of ICDS Scheme-assessment of the requirement of additional Projects and Anganwadi Centres.

Madam,

As you are aware, in a Public Interest Litigation (PIL) bearing number CWP ___ People's Union for Civil Liberties (PUCL) Vs UoI. & others. The Hon'ble Superiendent vide its order dated 29.4.2004 had inter-alia, directed the Union of India ___ the timeframe within which the Scheme would be expanded so as to cover 14 lakhs habitations/settlements in the country. The National Common Minumum programme (NCMP) of the Government also envisages universalization of the ICDS programme to provide a functional Anganwadi in every settlement and ensure full crease of all children.

In compliance of the Supreme Court's order and to innplement the NCMP, an inter ministrial Task Force (IMTF) was constituted on 13th September, 2004 to review the population norms and suggest revised norms for setting of a Project and an Anganwadi Centre under

the ICDS Scheme. The norms recommended by the Inter Ministerial Task Force vide its report of 15 June, 2005, were shared with all the Ministries vide Ministry's letter No. 14-8/2005-CD-I dated 12th July, 2005. Based on the revised population norms, the States were requested to indicate their requirement of _____ Projects/Anganbadi Centres for the 2nd phase of expansion of ICDS programme. As per the requirements so received, 166 Projects, 106726 AWCs and _____ Mini Anganwadis have been sanctioned to States/UTs during 2006-07.

Further to this as has already been brought to your notice through e-mail (secy _____, the Hon'ble Supreme Court in its order dated 13-12-2006 has _____ the Union of India to sanction and operationalise a minimum of 14 lakh AWCs in a phased and even manner, starting forthwith and ending December, 2008. In doing the Central Government is required to identify SC and ST, habitations for setting up _____ on priority basis. Initiating the exercise for the third phase of the expansion of ICDS Scheme, the Ministry shared with the States/UTs, vide do letter No. 14-_____ (Vol.II) dated 10th January, 2007, the data on total number of habitations _____ country with SC population of 40% or more as available from the Ministry of Social Justice and Empowerment, (as per census 2001). All India Educational Survey (2003) carried out by the Department of School Education and Literacy and the National Habitation Survey (2003) conducted by Department of Drinking Water Supply. Ministry of Rural Development, for facilitating preparation of a list of uncovered habitations along with population which would require additional AWCs and Mini-Anganwadi Centres while ensuring that no habitation/settlement with preeminantly SC/ST/Minority Population is left out.

4. Since the revised population norms too were found to be inad-

equate to comply with the directions of the Supreme Court and to honor the commitment enunciated in NCMP, it was decided to revisit the population norms recommended by IMTI in June, 2005. The IMTF accordingly deliberated on this issue at length and has recommended the following norms.

General :

Projects: The Committee reiterated the earlier recommendation that:

(i) Community Development Block in a State should be the unit for sanction of an ICDS Project in rural/tribal areas, irrespective of number of villages/population in it.

(ii) The existing norm of 1 lakh population for sanction of urban project may continue.

The Task Force has recommended that for blocks with more than two lac population States could opt for more than one Project (@ one per one lac population) or opt out for one project only with suitable strengthening of the Project Office.

5. The States are now requested to undertake a micro level survey having regard to predominantly SC/ST/Minority habitations in the context of the revised population norms as given above and furnish specific requirement of additional Projects Anganwadi Centres and Mini Anganwadi Centres in the Performa at Annex I, for the third phase of expansion of the ICDS Scheme.

State who have already sent their requirements of Anganwadi Centres AWCs. Mini-AWCs) for the 3rd phase of expansion may re-submit their proposals after taking into account the afore-mentioned population norms recommended by the IMTF.

Yours faithfully,
